Dear Member,

The final meeting of the 2026 Session will be the **Annual General Meeting** which will take place on Wednesday 11th November 2026. The agenda is overleaf. After the AGM Dr David Mummery MB ChB MRCGP will deliver his Presidential Address on:

FIBROMYALGIA, POST-TRAUMATIC STRESS DISORDER AND ME/CFS: THE OVERLAP

David has been a GP for 23 years and is currently a GP in Clapham. He still does mainly clinical work and enjoys working in a vibrant, multicultural inner city General Practice.

He is a research fellow at the Department of Primary Care and Public Health, Imperial College, and one of the founding members of Imperial SCARU - Self Care Academic Research Unit, founded in 2017, which is the first university unit in the world dedicated to the study of 'self-care'; ie how we as individuals and communities look after our own health.

He is currently chair of the Royal College of GPs ethics committee and GP research lead for North London NIHR Primary Care research network.

This talk looks at three common conditions : Fibromyalgia, Post Traumatic Stress Disorder and ME/CFS which traditionally have been thought as separate conditions, diagnosed and managed by different specialists. The emerging evidence is that they are related, overlapping conditions with many similar features and often a similar aetiology involving the immune system.

There will be a buffet supper at 6.45pm followed by the Lecture. The cost of the supper will be £50 per person for members and guests. You are asked to pay by BACS to Sort Code 20-71-74, Acct 30152145. **Please use your surname and date of the meeting as a reference and send an email to harveiansoclondon@outlook.com to confirm your booking.** If paying by cheque, please send your remittance with the slip below to reach the Executive Secretary by Monday 9th November.

Yours faithfully,
Dr Joanna Brown, Hon Secretary
